Congress of the United States

JOINT COMMITTEE ON ATOMIC ENERGY
(CREATED PURSUANT TO PUBLIC LAW 585, 79TH CONGRESS)

January 15, 1952

File

Mr. Walter Pfortzheimer
Central Intelligence Agency
2430 "E" Street, N.W.
Washington, D. C.

Dear Mr. Pfortzheimer:

Enclosed is a copy of a self-explanatory letter describing the procedure to be followed in connection with delivery and pickup of classified documents to and from the Atomic Energy Commission and the Joint Committee on Atomic Energy.

Members of your own organization sometimes have occasion to be concerned as to the proper method of delivering classified documents to the Joint Committee and it occurred to me that the enclosed might be useful to them. Although I have asked the Atomic Energy Commission to supply us with certain photographs due to the frequency of our dealings with Commission courier personnel, this does not constitute a request for photographs of your own couriers.

Sincerely yours,

William L. Borden

Executive Director

Encl.
